ONE VISION ONE VOICE
CHANGING THE ONTARIO CHILD WELFARE SYSTEM TO BETTER SERVE AFRICAN CANADIANS

Purpose
In 2015, the Ontario Ministry of Children and Youth Services funded the African Canadian community, through the Ontario Association of Children’s Aid Societies, to facilitate the development of a Practice Framework that would support child welfare agencies in providing better service to African Canadian children, youth and families.

Project Rationale
For decades, African Canadians, advocates, service users, community partners, and most recently the media have raised the issue of overrepresentation of African Canadian children and youth in Ontario’s child welfare system. While the data to quantify the extent of racial disproportionality have not been collected on a provincial level, the limited data that are available, the personal experiences of service users, as well as observations by service providers, advocates, family courts, and group home staff confirm that there is an overrepresentation of African Canadians in Ontario’s child welfare system.
