(Theresa Fraser, 2020)
Not that long ago I used to go to school everyday.

(Theresa Fraser, 2020)
I would pretend to fly rockets on my pencil when I was bored.
Now there is this virus that can make people feel sick. We are all staying in our homes until the world feels better.

(Theresa Fraser, 2020)
We are spending lots of time together at my house.

(Theresa Fraser, 2020)
We can visit our friends and family using technology.

(Theresa Fraser, 2020)
We try to eat more meals together because we don’t have to rush around as much.

(Theresa Fraser, 2020)
We are reading together more too.

(Theresa Fraser, 2020)
There are still times when I feel bored. Then I remember that by staying at home I am being a world superhero.

(Theresa Fraser, 2020)
The more there are superhero people who stay at home- the more quickly our world will get better.

(Theresa Fraser, 2020)
Get better quickly world - we love you.

(Theresa Fraser, 2020)
