Children and Youth in Care Day 2020
Let’s celebrate together!

This important day, proclaimed into law with the Children and Youth in Care Day Act, 2012, is an opportunity to recognize the enormous contributions that current and former youth in care make to this Province, as well as the strength, bravery and resilience shown by these children and youth in the face of adversity.

This year in wake of the coronavirus (COVID-19) pandemic, OACAS and child welfare agencies are thinking differently about what celebration looks like.

OACAS looks forward to continuing to support Children’s Aid Societies, and Indigenous Child and Family Well-Being Agencies to celebrate Children and Youth in Care Day locally or with zone partners.

Similar to last year, this Toolkit was designed and updated by OACAS with input from our Youth for Change Steering Committee (composed of a diverse group of youth in and from care) and YouthCAN agency staff champions. The lion represents the bravery and courage to overcome the obstacles and challenges of being an individual in and from care. The colours also reflect elements of being in and from care. This logo and hashtag will be reproduced on the stickers to be delivered to agencies in advance of May 14.

With our hashtag #CARE4CARE, OACAS will focus on creating a social media presence to raise awareness within and beyond the child welfare sector about the importance of caring for children and youth in/from care and increase an understanding of their unique lived-experiences.

With this strategy and toolkit, OACAS aims to build on the capacity of agencies that already celebrate the day as well as help those who will be celebrating locally for the first time. We hope this strategy will be more inclusive of remote, rural and Northern agencies, which often cannot participate in central events due to travel and weather restrictions. OACAS also aims to promote one unified message across the province about our commitment to children and youth in care, while elevating awareness about the child welfare system to the public.

This Toolkit includes:

- Goals of Children and Youth in Care Day
- Logo and hashtag for social media
- A list of activities recommended by youth in and from care in Ontario
- A list of activities to virtually celebrate with children and youth
- 5 Tips to Be a Helpful Adult to Children and Youth in/from Care During COVID-19
- A chart of past agency events for inspiration
- Key messages for social media and hashtag
- Downloadable poster

Please see package for our logo and hashtag for Children and Youth in Care Day, designed by OACAS with feedback from youth and YouthCAN agency staff champions. The lion represents the bravery and courage to overcome the obstacles and challenges of being an individual in and from care. The colours also reflect elements of being in and from care. This logo and hashtag will be reproduced on the stickers to be delivered to agencies in advance of May 14.

With our hashtag #CARE4CARE, OACAS will focus on creating a social media presence to raise awareness within and beyond the child welfare sector about the importance of caring for children and youth in/from care and increase an understanding of their unique lived-experiences.

With this strategy and toolkit, OACAS aims to build on the capacity of agencies that already celebrate the day as well as help those who will be celebrating locally for the first time. We hope this strategy will be more inclusive of remote, rural and Northern agencies, which often cannot participate in central events due to travel and weather restrictions. OACAS also aims to promote one unified message across the province about our commitment to children and youth in care, while elevating awareness about the child welfare system to the public.

The toolkit is also available to download on the members’ and public websites.
CHILDREN AND YOUTH IN CARE DAY TOOLKIT

CHILDREN AND YOUTH IN CARE DAY - GOALS:
1. To build Children and Youth in Care Day into a multi-year campaign
2. To celebrate children and youth in and from care for their strengths and unique identities
3. To build better networks of support by increasing participation of community members and partners so that children and youth in/from care feel supported
4. To destigmatize views about children and youth in and from care by increasing awareness and understanding with the public

RECOMMENDATIONS BY YOUTH IN AND FROM CARE IN ONTARIO

Celebration:
- I think it is important to recognize the amazing successes of children and youth in the system from across Ontario
- This event is to celebrate the strengths, contributions and diversity of the youth in care, such as a banquet or a block party!
- Open-mic times for artistic expression by youth such as poetry or monologues.

Feelings:
- I want agency supervisors and Board Members to participate, so we know who support us!
- Children and Youth in Care day should be an opportunity for the family as well. They should be publicly invited to join us.
- It should be like a birthday party!

Workshops and speakers:
- I want a motivational speaker who talks about how to address challenges related to mental health and identity.
- I want inclusive workshops and activities that include speakers who reflect our identities like people who are LGBTQ+, a racial minority, Indigenous etc.
- Anti-discrimination and anti-oppression workshops for children and youth, in addition to CAS staff and family members working with the children’s service system

HASHTAG AND LOGO

To symbolize Children and Youth in Care Day we have chosen a purple lion to symbolize the bravery of children and youth in care; we have chosen a red heart to show that we are loving people and we also want to be loved; we have chosen the colour blue to represent the sadness and losses we experience but also that the sky can’t contain our limits as we have endless potential. It is important to care for children and youth in/from care, so the hashtag is care4care.
The priority is to put the voice of children and youth at the centre of decision making, so the first step is to ask the young people at your agency what ideas they might already have. The list below are additional suggestions that might help:

1. **Talent Show.** Circulate sign-up list for youth sign up for a timeslot on selected date to display their talent (e.g., singing). Connect with group via video and let the fun begin!

2. **Dance Party.** Set a date for everyone to join via video. Assign one person as the DJ and let the music play! Bonus points for wearing a dance outfit and decorating your room.

3. **Virtual Pizza Hang Out.** Send a mini pizza to everyone’s house and setup a time in advance to eat together via video. Alternatively, set up a time with your youth to simply eat their own food together as a group for a dinner hang out.

4. **Learn a Skill.** Ask youth about something they want to learn, for example, potting a plant. Send youth the tools required (e.g., dirt, pot, seeds) and do the activity at the same time on video with your own set of tools.
5. **Virtual Drop-In.** Setup a date for youth to join a group video chat or phone call. You can even set this up on a weekly basis (for example, every Wednesday 10 – 11 am). This provides a consistent spot to stay connected and ask questions and/or share resources.

6. **Virtual Book or Movie or Game Club.** Pick a book or movie or YouTube video with youth to read or watch then discuss as a group. Alternatively, choose a video game that everyone can play online together or on a platform like PlayStation.

7. **Life Skills Workshop.** Ask youth to send in questions related to a topic and take up questions as a group. Questions can be related to a life skill (e.g., health relationships) or focused on something that might help them during the pandemic (e.g., finding stable housing and apartment viewing during covid-19, how to get along with your roommate). For ideas about resources relevant to youth, [click here](#) for a list created by youth in and from care about their priorities during COVID-19.

8. **Cultural and Identity-Based Activities.** Find an identity or cultural-based organization to collaborate with so youth can stay connected to community-activities (e.g., Drumming circles, LGBTQ+ drop-in group).

9. **Art Inspiration Workshop.** Choose a topic or question for inspiration, such as: What would I be like as a superhero including superpowers? Ask youth to create a piece of art, poetry, song etc. based on this prompt. Share your work via video.

10. **Mini-Care Package Drop-Off and Letter Delivery.** Agencies can create mini-care packages that can be dropped off at a youth’s place of residence. Mini-care packages can include encouraging messages from your agency, hand sanitizer, food and other small items that might give youth a sense of care and support during this time. Alternatively, write a letter to youth which expresses that you care and are thinking of them.
5 TIPS TO BE A HELPFUL ADULT DURING COVID-19 FROM CHILDREN AND YOUTH IN/FROM CARE

1. Help us stay connected to our cultural and identity-based groups. Now is the time to lean on and find strength in community.
   • Click here, here and here for First Nations, Inuit, and Métis-focused resources.
   • Click here and here for resources for those of African descent.

2. Talk to us! Validate our feelings and share resources related to COVID-19 that can help us understand what it means in an age-appropriate way.
   • Click here and here for tips about how to talk to children and youth about COVID-19.

3. We want to be productive! Help us stay on track with schoolwork or collaborate with us to figure out extra learning activities we can do.
   • Click here and here for French and English educational resources for school-age children and teens.

4. Remember that even if there is a computer in the house, we might have limited or restricted access.

   Ensure that we have the right technology (e.g., computers, tablets, phones) with Internet that matches our needs.

   Technology and Internet access helps us connect with family/friends, schoolwork, mental health supports and other community resources.
   • Click here for a program that provides youth from care access to free phone and data.

5. Check in with us and let us know you care! This is a scary time and can remind us of other negative experiences in our life involving isolation, trauma and uncertainty.

   • Giving us care packages is one way to show your support, these packages can include practical and entertainment items (e.g., art supplies, hand sanitizer, toilet paper, dry foods, vouchers, handwritten letters, games, puzzles etc.). This is especially helpful for youth who find video or phone contact overwhelming.
   • Click here to contact a local Children's Aid Societies and ask how to drop off donations for care packages today.
# Past Agency Events

For more ideas, check out a few examples of what was done in past years and agencies!

## Northern and North East Zone

<table>
<thead>
<tr>
<th>Organisation</th>
<th>Event Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oxford CAS and Elgin Child and Family Services</td>
<td>BBQ and outdoor activities such as road hockey, cement chalk, and jump rope.</td>
</tr>
<tr>
<td>Children’s Aid Society of Nipissing and Parry Sound</td>
<td>Outdoor event with activities for all ages including inflatables, obstacle course and jousting. BBQ, cotton candy and popcorn. Attend local bowling alley, eat pizza and games with prizes.</td>
</tr>
</tbody>
</table>

</table>
On May 14, 2012, Children and Youth in Care Day was proclaimed by the government of Ontario to raise awareness about children and youth in care. There are approximately 12,000 children and youth in care in Ontario. Each year 800 - 1,000 individuals ‘age out’ and leave the care of the Ontario child welfare system. We are a growing part of your community.

On May 14, 2020, children and youth in care and from care ask the community to join in celebration and raising awareness to show they care. Friends, group home staff, foster parents, health professionals – it is important that we know you care for us!

We need to know that we matter to you. It helps to know we have a community that we can turn to and that we belong to, especially in those moments when we feel alone.

On Children and Youth in Care Day we celebrate, because we are people living unique, intricate lives, making important contributions to society, just like you. Come celebrate with us.

On May 14, 2020, we raise awareness about children and youth in care. We are your friends, your neighbours, your community. Hear us, see us, judge us as you’d judge anyone else.

On Children and Youth in Care Day we raise awareness about the struggles we face - being in care can be a challenging, isolating and unpredictable rollercoaster. Supportive friends, services and community can make the difference.

It only takes one person to make us feel like we are not alone. On Children and Youth in Care Day, be that person and #care4care.

We are here for a purpose and whatever that purpose may be we will shine in our light.

To symbolize Children and Youth in Care Day we have chosen a purple lion to symbolize the bravery of children and youth in care; we have chosen a red heart to show that we are loving people and we also want to be loved; we have chosen the colour blue to represent the sadness and losses we experience but also that the sky can’t contain our limits as we have endless potential. 
We are your friends, your neighbours, your community. Hear us, see us, understand us, celebrate with us!

We need to know that we matter to you. It helps to know we have a community that we can turn to and that we belong to, especially in those moments when we feel alone.

We are here for a purpose and whatever that purpose might be, we will shine in our light!

We are diverse people living unique, intricate lives, making important contributions to society, just like you! Come celebrate with us!

We are your friends, your neighbours, your community. Hear us, see us, understand us, celebrate with us!

We celebrate over 12,000 children and youth in care from across Ontario. Every year, approximately 800 to 1,000 of us ‘age out’ of care. We are a growing part of your community.

We are a growing part of your community.
